

Tushar Garg — Website Typography Guide

Recommended font families for a premium, authoritative legal website

Primary Recommendation

Cormorant Garamond + Inter is the recommended typography pairing for the Tushar Garg website. It combines a refined editorial serif for authority and sophistication with a clean sans-serif for navigation, body copy and interface elements.

Website Element	Recommended Font	Weight
Logo / TUSHAR GARG	Cormorant Garamond	600–700
Main Headings (H1/H2)	Cormorant Garamond	600
Subheadings	Inter	500–600
Body Text	Inter	400
Navigation	Inter	500–600
Buttons / CTA	Inter	600
Small Labels	Inter	500 / Uppercase
Judgment / Case Titles	Source Serif 4	500–600

Why This Pairing Works

- Cormorant Garamond gives major headings and the advocate's name a distinguished legal/editorial character.
- Inter keeps the interface highly readable across desktop and mobile screens.
- The combination complements the existing deep navy + gold visual identity.
- It creates a balance between traditional legal authority and a contemporary digital experience.

Alternative Typography Systems

Pairing	Best For	Overall Feel
Playfair Display + Manrope	Modern legal / luxury presentation	Elegant & contemporary
Libre Baskerville + Inter	Traditional legal authority	Classic & trustworthy
Source Serif 4 + Inter	Judgments, articles & legal content	Editorial & highly readable

Final Recommendation

Use Cormorant Garamond for major headings and the Tushar Garg brand name, and use Inter for body text, navigation, buttons and UI elements. For a content-heavy legal section, Source Serif 4 can be introduced selectively for judgment and case-law titles.

Suggested visual direction: deep navy background, restrained gold accents, generous whitespace, uppercase navigation with modest letter spacing, and strong serif hierarchy for legal authority.
